ENGLAND'S WRATH AROUSED BY RUSSIA

FATIGUED BY SOCIAL CAMPAIGN, MISS ALICE ROOSEVELT BREAKS DOWN.

MISS ALICE ROOSEVELT, daughter of President Roosevelt.

PRESIDENT'S DAUGHTER MADE ILL BY SOCIAL ROUND.

Cancels All Engagements for Week and Retires to Sagamore Hill.

By Boston American Special Wire.
OSTYER HAY, N. Y., July 18.—Miss Alice Roosevelt on account of ill health had to cancel her visit with the Misses Dix at Lawrence, N. Y., and was brought here today across country in a big motor car. Her indisposition is not at all serious, being nervous fatigue and breakdown incident to the close of a hard social campaign. She had intended to remain all week at Lawrence and was to be the guest of honor at a dance given by the Rockaway Hunt Club.

She will now quietly at Sagamore Hill for several weeks and recuperate. Her present indisposition will be exhausting and tiring, she is quite adept at running, using the faster stroke now p-values with Corbett.

Next week she hopes to be able to assist Mrs. Roosevelt in the social duties pending the formal dedication of the front door.

Now she is in the care of Mrs. Philip Brock, who is her sponsor in Washington circle and who like nothing better than to look after the health, and the upturn of her young friends.

WILD DASH OF ENGINE FAILS TO SAVE HIS LIFE

In a wild race for a boy's life, a Boston & Albany division engine was raced from Beacon Park, Alton, to the South Station this morning, leaving twelve-year-old James Maloney, of No. 217 Brevett street, Alton, who had both thighs crushed by falling under freight train wheels. The boy was alive when he reached the Massachusetts General Hospital, but surgeons there say he cannot live.

Young Maloney and some playmates were standing a ride on a freight in the N. & A. when yards at Beacon Park, Alton, where the car he was in was shown to him. At the South Station, where the engine was stopped, he was taken to the hospital.

"Papa, papa! Mamma, mamma!" wailed the fatally injured boy, as trainmen and his scared playmates went to him. No doctor was handy. The trainmen carried the boy as quickly as his sufferings would let them into an engine, which was standing detached from its train at the yard. The yardmaster secured "Clear track to the South Station."

The astonished railroad ambulance rolled out of the yard and was switched onto an upward track for a life-saving race.

The boy, made as comfortable as possible on the floor of the cab, groaned pitifully, calling for his father and mother. The engine flew alone. At the South Station, where the ambulance was waiting, it was taken to the hospital.

WOMEN RAISED MAD DOG CRY

"Mad dog! Mad dog!" was shrieked by a group of women who were standing near the South Station this morning, as a brown water spaniel dashed frantically at Sellman Timothy Cannon and his startled wife. The dog, which was named "Timothy," was a large, powerful animal, and had been running at large in the neighborhood. The women, who were standing near the South Station, were raising a mad dog cry, and the dog was running at them. The dog was named "Timothy," and was a large, powerful animal. The women, who were standing near the South Station, were raising a mad dog cry, and the dog was running at them.

WAR THREAT BY BRITISH FLEET

PRICES OF WEAT TAKE A TUMBLE

"People on Strike" and Dealers Have Bigger Supply Than They Can Sell.

RETAILERS ARE ALARMED

Dealers in most retailers, jobbers and wholesalers, and not the public, apparently are suffering in Boston today as a result of the most strike. Prices for wheat fall an average of about two cents a bushel, but there were no buyers. The fish men, as was the case last week, did a rushing business, while the butchers were idle.

"The people have gone on a strike," said a Russian Hall retailer. "Our rollers are full of meat which cannot be sold. Trade has dropped off 50 per cent. since early last week."

Reduce Price to Retailers.

The packers have been arranged and demanded their full price of 12 cents, but they came to us this morning and offered meat at 10 1/2 cents, or almost any price, if we would take it off their hands. Their rollers are full and reports show that quite a demand had been made for the meat from the city. A serious oversupply of beef in Boston.

The retail price of beef under the hammerings of the packers dropped slightly this morning, but the quality of beef that was usual was a good one. The price of the best cuts remained at the prices above yesterday and today, and there were few buyers.

The "Shilling at Brighton, Mass." has been continued on 2nd Page, 1st Column.

Readers should feel thankful to the east wind today. It saved the city from a hot day. When, after a cold, the night was very warm, the temperature was in the 70s. This breeze cooled things off a bit at the noon hour, but there's no relief, as weather men say, how long the breeze will keep up.

SEC. JACKSON SAYS OPERATIVES SHOULD NOT SUBMIT TO OWNERS' OPPRESSION.

Special to the Boston American.

FALL RIVER, July 19.—Secretary Joseph Jackson, of the Slasher Traders' Association, favors a strike. The call for a mass meeting of the mill hands will be issued this afternoon. In the call Secretary Jackson says:

"Personally I believe the operatives should strike. With the combination of low wages, cruel treatment and high cost of living, it would be justified in so doing."

The strikers are divided with discontent in this mill city and there is a growing belief that they will take determined action on the 25th of this month.

Secretary Jackson will leave the following call at the afternoon.

MR. JACKSON'S CALL.
To the Members of the Slasher Traders' Association: The regular monthly meeting will be held Wednesday night, July 20th, in the St. Mary Hotel room. Again have market conditions been disturbed and further hardships sought to be imposed on the textile operatives by a proposed reduction of wages.

"The wretched condition of the cloth market has been of long duration and world-wide in extent. In other sections of the textile industry, the operatives have been struggling for a long time to secure an indication of a reduction of wages. It is requested for the manufacturers of this city, who usually for everything in, efficiency, a reduction of wages, to seek improvement."

"Their attitude justifies the belief that they were not satisfied with the present situation. They should try to get out of the mill, and if they are not satisfied with the wages of cotton pickers, there is as much sense in one as the other."

BELIEVES IN STRIKE.
"However, it seems their purpose to take advantage of the unfavorable condition of the market."

FAMOUS GROTON COTTAGE BURNS

Special to the Boston American.

GROTON, July 19.—The Powell cottage, where President Roosevelt and his family spent every day at the time he was in Groton, has been burned to the ground. The cottage was a large, two-story house, and was built in 1880. It was owned by the Powell family, and was used as a summer home. The cottage was burned down by a fire that started in the kitchen. The fire was caused by a gas stove that was not properly maintained. The cottage was a famous place, and was visited by many people. The fire was a great loss to the Powell family.

G. H. MORGAN AND WIFE TO SEPARATE?

Explanation Offered of the Sale Of \$1,000,000 Home at Lenox.

Special to the Boston American. LENOX, Mass., July 19.—The announcement that George H. Morgan's \$1,000,000 country house here is to be sold caused all sorts of wonder, but now people think they have found a reason in the rumor that he is to separate from his second wife. Mrs. Morgan, who is 40 years old, is a widow of a Boston man, when they were married in Trinity Church here five years ago. The wife was then 27 years old and the groom was 30.

It is believed in society circles that the disagreement is due to the marriage of George H. Morgan to a young woman, a blue-blooded Japanese beauty, in Tokyo. Young Mr. Morgan has been in the city since that country a few months since.

Special to the Boston American. The elder Mr. Morgan, brother-in-law to J. Pierpont Morgan, is now in Europe, and his wife has gone to her father's. They were last together here on May 31. Although the father was a well-known gentleman and prominent in business, Mrs. Morgan was a stranger in the city.

She sold new houses to cottagers and lived at her father's. The day after their arrival in the city, she was seen in the city. The statement was made, and the crisis has come to the great stock yards strike.

THE CAPTAIN WINS OUT.

THIS is the time the captain wins out. He has his own way. The statement was made, and the crisis has come to the great stock yards strike.

THE CAVE OF DESPAIR

80 AND 82 SUMMER ST., BOSTON, JULY 19, 1904.

A Real Story of Selfishness and
Hypocrisy

The next morning they accused the policeman again, paid their fines and went free. The policeman was cleared of the charge against him, and all ended happily.

Longing for a Narrow, Stringy
Shape, It Will Do a Great
Deal of Good

Her high heels and her tight corset, on the other hand, are viciously foolish, because they ruin her health and render her unfit for the one profession that suits her—that of motherhood.

The worst of it is that a good many young men admire and marry what they think is fashionable. And when it is the fashion for women to have very narrow, insufficient figures, many women shaped that way by nature are the first to be married, and, in this way, women unfit for motherhood are the first chosen in the matrimonial class.

narrow like a shingle—is not fitted by nature to be a mother of intelligent children. And any woman ill fitted for that role ought certainly to be the last to marry.

Healthy, normal women of the old type, able to bring good children into the world, should be selected as wives by wise young men. May the threatened advent of the bustle make the normal woman fashionable once more, do away with banting and the foolish, flat, shapeless tryp.

None in town? My dear sir, there was a case across the street not three days ago. I saw the flag myself.

Little Editorials from the People

Little Editorials from the People

THE BOSTON AMERICAN welcomes its growing army of correspondents, who write their views on the many questions in which they are interested, but for the sake of all, and in order to give the hundreds who write to it a chance, it is requested that all make their "little editorials" very brief. Letters of from 100 to 200 words will speedily appear.

HIS TAXES HELP HIS NEIGHBOR

all those who expect us to "more or less" take care of Boston. A HOOD.

KNOWS BOSTON AMERICAN!

It is a great deal of the city I know as New Dorchester. I own these houses in which I live, and pay my taxes every year. What I pay them for, and why, I don't know. The city will not accept the street, and therefore the only car which the street receives is from the students themselves. In that section the land is assessed quite high, consequently we pay more tax than our neighbors, whom we money below to benefit by the street repairs which they receive. I ask, is this fair to me and numerous others in the same circumstances? A TAXPAYER.

New Dorchester.

ALL SHOULD LEARN TO SWIM

Editor BOSTON AMERICAN:
Your editorial of July 14 on swimming is very timely. We have had compulsory vaccination ever since the smallpox epidemic in Cleveland in 1880. For every child to learn to swim is more important than that each be vaccinated. It is not the use and public money which we need as much as the swimming pool. The swimming pool is a competitive field among boys and girls. I trust that the city girls' swimming at Beverly are those I see diving off the rocks, and I despise any man or boy sixteen who confesses himself such a fool as not to be able to swim.
Yours truly,
CHAS. W. SMILEY.
